Linked California and Québec Cap-and-Trade Programs Compliance Instruments Aggregated by Type and Account

This report summarizes the number of compliance instruments held by entities in the Linked California and Québec Cap-and-Trade Programs. The data is presented by instrument type (allowances by vintages and offset credits by project type), and is aggregated for each type of account. Unless denoted with the issuing jurisdiction in parentheses (CA) or (QC), all instrument types are issued by both California and Québec. For program participants in California and Québec, the accounts include: General (Holding) Accounts; Compliance Accounts; and Limited Use Holding Accounts. The California and Québec jurisdiction accounts include: Voluntary Renewable Electricity Account; Auction, Issuance and Allocation Accounts; and the Allowance Price Containment Reserve (Reserve) Account.

This information was pulled from the Compliance Instrument Tracking System Service (CITSS) as of noon (Pacific) and 3pm (Eastern) the business day prior to the date listed above. This information is specific to the account holdings of entities registered in CITSS pursuant to the California and Québec Regulations. The report includes all instruments issued in the linked California and Québec Cap-and-Trade Programs and is summarized by instrument type, regardless of the issuing jurisdiction (for example, account holdings of vintage 2013 instruments includes all 2013 allowances issued in California and Québec). The account holdings of California entities may contain compliance instruments (allowances and offsets) issued by Québec and the account holdings of entities registered in Québec may contain compliance instruments issued by California. This report is updated on the second business day of each calendar quarter.

Vintage	Entity Accounts			Jurisdiction Accounts				All Accounts
	General	Compliance	Limited Use Holding Account***	Voluntary Renewable Electricity***	Auction + Issuance + Allocation	Retirement**	Reserve	Total

[†] There are an additional 1,193,461 U.S. Forest Project Offset Credits in the ARB Forest Buffer Account.

* 4.3 million Ozone Depleting Substances Offset Credits issued by California are currently under investigation. More information is available at <http://www.arb.ca.gov/cc/capandtrade/offsets/issuance/issuance.htm>.

** Voluntarily surrendering compliance instruments to the Retirement Account is permanent and does NOT fulfill any compliance obligations your entity may have for GHG emissions.

*** Accounts available only to California entities.

**** Québec's Environmental Integrity Account is not shown on this table, as its balance is currently 0.
